IV. REVIEW OF AGENDA
There were no changes to the agenda.

V. PUBLIC PARTICIPATION/ORAL COMMUNICATIONS
There were no comments from the public.

VI. PRESENTATION: SEASIDE AQUIFER REPLENISHMENT PROJECT
Keith Israel, General Manager of the Monterey Peninsula Water Pollution Control Agency (“MPWPCA”) gave a presentation regarding the MRWPCA Groundwater Replenishment Project. Mr. Israel provided printed copies of the presentation to the Board and public. Mr. Israel responded to questions from the Board. He stated that multi-agency recycled water projects are difficult to summarize in a chart, but all have the same intent -- zero discharge to the bay from the MRWPCA treatment plant. Public perception is a large issue, but there have been no incidents related to recycled water use reported to MRWPCA in the 40 years that the process has been used. Mr. Israel invited policy makers and anyone else interested to attend a tour of the Orange County Water Factory 21 to witness the success of the technology and the high quality of the treated water. A tour has been scheduled through MRWPCA in November.
There were no questions or comments from the public.

VII. CONSENT CALENDAR
There were no questions or comments from the Board or public. Moved by Director Costa, seconded by Director Bruno, and unanimously carried to:

- Approve the payment of bills
- Approve giving Chief Executive Officer the authority and direction to receive “public records act requests pursuant to the Brown Act”

1. COMMITTEE REPORTS

AD HOC ADMINISTRATIVE COMMITTEE
No current report.

AD HOC RULES AND REGULATIONS COMMITTEE
No current report.

TECHNICAL COMMITTEE
Chief Executive Officer (“CEO”), Dewey Evans, reported to the Board that the dual RFP to manage and implement the Seaside Basin Monitoring and Management Program was sent out September 29, 2006 to 26 firms and is due back from proposers on October 20 with an award date set for November 1, 2006. The Technical Committee will be making a recommendation to the Board.

BUDGET AND FINANCE COMMITTEE
Chairman of the committee was absent. Mr. Evans reviewed the recommendation that the Board vote to provide the support requested from the attorneys representing both California American Water Company and the City of Seaside to seek clarification from the Court on the formulaic approach for calculating the Over-Production Replenishment Assessment as outlined in the letter submitted to the Board from the attorneys dated September 12, 2006.

Attorney Don Freeman addressed the Board, stating that the clarification of this issue was brought before the Board in the past, and, instead of taking up the Board’s time debating the issue, it would be best to present a petition to the Court for clarification. He suggested, in the interest of time and cost, the petition also request the Court to:

- Accept the current Management and Monitoring Plan adopted by the Watermaster Board;
- Approve the Rules of Procedures for conducting Watermaster Board business;
- Approve a critical time path setting forth all tasks that need to be accomplished and a responsible person assigned for each task:
This critical time path would require Board approval prior to petitioning the Court;
- Clarify any other issues that any member of the Watermaster Board or the CEO may need clarified;
- Approve budgets adopted and approved by the Board.

Board actions necessary for the preparation of the suggested petition to the Court are:
- Adoption of a 2007 Administrative Budget;
- Approval of a Capital Outlay Budget with line items developed by the Technical Committee;
- Technical Committee determination of the cost of an acre-foot of water for the Replenishment Budget, to be used in calculating the Over-Production Replenishment Assessment after the Court gives guidance for the formulaic approach.
- Development and approval of a critical time path and who is responsible for accomplishing each of the tasks on the time line;
- Provide any other requests for clarifications that any member of the Watermaster Board or the CEO may seek.

Attorney David Laredo addressed the Board with his concern as to Board conduct on this matter as it pertains to the Brown Act. He felt that today’s agenda did not allow a full discussion and action by the Board. Mr. Freeman responded stating that no action is requested, only suggested that the Board and CEO consider holding a date open to move forward to process the items suggested. Chair Rubio clarified that the agenda shows the only item before the Board is support of the approach that counsels are proposing be put before the Court. In considering additional items being put before the court, it is appropriate for the Board to give the CEO direction to forward these tasks to the appropriate committees and set a meeting.

Director Costa, Laguna Seca Subarea representative, requested assurance that the matter of replenishment assessment pertained only to the formula by which the determination would be made, and that no reduction in production allocation or assessment for alternative producers is imposed. Mr. Freeman assured Mr. Costa that the matter refers only to the parties involved in the Seaside/Cal-Am issue and no one else.

Mr. John Fischer, Pacific Grove resident, addressed the Board and stated his full support of a critical path timeline listing those responsible for each task. Curtis Weeks, MCWRA, also expressed support of a comprehensive, itemized schedule for the Board to operate under.

Mr. Freeman stated that the Court Order calls for the budgets to be adopted no later than the month of October, and suggested November 1, 2006, as an arbitrary deadline for completing the suggested items. Mr. Heisenger and Mr. Freeman are available to assist in moving forward, however, Mr. Freeman will be out of state from October 20 through November 1, 2006.
Attorney James Heisenger reviewed some details of the elements of the petition that was suggested by Mr. Freeman.

Chair Rubio requested the Board consider giving the CEO direction to forward these items to the appropriate committees. He called for members to hold open October 27, 2006, 1:30 p.m. at Soper Field or Oldemeyer Center, Seaside, for a special meeting of the Board on this matter; Mr. Evans to confirm the meeting date, time, and location.

Moved by Mayor Albert, seconded by Mayor Russell, and unanimously approved, to provide the support requested from the attorneys representing both California American Water Company and the City of Seaside to seek clarification from the Court on the formulaic approach for calculating the Over-Production Replenishment Assessment.

IX. NEW BUSINESS
The Board had no new business.

X. DIRECTOR’S REPORTS
There were no reports from Directors.

XI. SPECIAL MEETING TENTATIVELY SCHEDULED FOR OCTOBER 27, 2006 1:30 P.M., SOPER FIELD OR OLDEMEYER CENTER, SEASIDE, CALIFORNIA
NEXT REGULAR MEETING DATE – NOVEMBER 1, 2006, 1:30 P.M., SOPER FIELD, SEASIDE, CALIFORNIA.

XII. ADJOURNMENT
There being no further business, Chairman Rubio adjourned the meeting at 2:33 p.m.

From: Dewey D Evans, CEO

Date: November 1, 2006

Recommendation: No action necessary, for information only

Comments: The attached report compares the actual expenditures to date to the Board adopted 2006 Administrative Budget and projects out what additional expenditures are anticipated to complete this Administrative (Calendar) Year.

If these estimated expenditures are close to the total estimated expenditures on December 31, 2006 there will be approximately $35,000 of unspent budgeted funds remaining. This unspent amount can be used to increase the reserve balance or can be used to offset the projected assessment for Administrative year 2007.

No financial reports were prepared for the other funds as there have not been any expenditures made to date. Although, there has been a contract issued in the amount of $14,600 to consultant Mr. Martin Feeney for the preparation of the groundwater modeling component of the Seaside Basin Monitoring and Management Plan. The cost of this contract will be charged against the operating portion of the “2006 Monitoring and Management Plan Budget” of $200,000 which was adopted at the September 13, 2006 Watermaster Board meeting.
