\*Transfer of Parcel and Assignment of Rights from D.B.O. Development No. 27 to D.B.O. Development No. 30

\*\*Referred to as "M.E. Calabrese 1987 Trust" in Decision

#### Notes:

- The Water Year (WY) begins October 1 and ends September 30 of the following calendar year. For example, WY 2010 began on October 1, 2009, and ended on September 30, 2010.
- "Type" refers to water right as described in Seaside Basin Adjudication decision as amended, signed February 9, 2007 (Monterey County Superior Court Case No. M66343).
- Values shown in the table are based on reports to the Watermaster as received by MPWMD by **October 18, 2010**.
- All values are rounded to the nearest tenth of an acre-foot. Where required, reported data were converted to acre-feet utilizing the relationships: 325,851 gallons = 43,560 cubic feet = 1 acre-foot.
- Each producer's total authorized production allocation is the sum of Base Operating Yield Allocation and Carry Over from Prior Year and is taken from the Watermaster Producer Allocations for this Water Year.
- Any minor discrepancies in totals are attributable to rounding.
- APA = Alternative Producer Allocation; SPA = Standard Producer Allocation; CAW = California American Water.
- During September 2010, CAW - Coastal Subareas provided 12.6 AF of water to City of Seaside (Municipal); the production volumes for both these producers were adjusted accordingly.
