

NOTICE TO ALL SEASIDE GROUNDWATER PRODUCERS:

The Watermaster hereby declares that for Water Year 2010 **NO** Artificial Replenishment Water is available:

- a. The Watermaster has not secured nor is adding an equivalent amount of Non-Native water to the Basin on an annual basis.
- b. The Watermaster has not secured reclaimed water in an equivalent amount and has not contracted with one or more of the Producers to utilize said water in lieu of their Production Allocation, with the Producer agreeing to forego their right to claim a Stored Water Credit for such forbearance; and
- c. No combination of a and b has resulted in the decrease in Production of Native Water required by this decision; or
- d. The Watermaster has determined that Groundwater levels within the Santa Margarita and Paso Robles aquifers are not at sufficient levels to ensure a positive offshore gradient to prevent seawater intrusion.

All producers are limited in production to the following quantities of water, inclusive of the 10% decrease in pumping:
