Total Production by Alternative Producers =					659.7		
Total Production by Standard Producers =					2,134.5		

*Referred to as "M.E. Calabrese 1987 Trust" in Decision

Notes:

1. The water year (WY) begins October 1 and ends September 30 of the following calendar year. For example, WY 2009 began on October 1, 2008, and will end on September 30, 2009.
2. Values shown in the table are based on reports to the Watermaster as received directly or by MPWMD by **July 15, 2009**.
3. All values are rounded to the nearest tenth of an acre-foot. Where required, reported data were converted to acre-feet utilizing the relationships: 325,851 gallons = 43,560 cubic feet = 1 acre-foot.
4. "Operating Yield" values based on Seaside Basin Adjudication decision as amended, signed February 9, 2007 (Monterey County Superior Court Case No. M66343).
5. Any minor discrepancies in totals are attributable to rounding. CAW = California American Water.
6. Graniterock Company, DBO Development No. 27, and Cypress Pacific Investors exempted from production reporting by Watermaster TAC February 2008.
7. Watermaster received notification from the City of Seaside on its intent to purchase 10 AF of carry over credits from Graniterock Company in this water year, and received no objections from Parties as of July 1, 2009 thereby making the transfer/assignment effective in accordance with its terms.
