

SEASIDE BASIN WATERMASTER  
REQUEST FOR SERVICE

DATE: September 8, 2022

RFS NO. 2022-05

(To be filled in by WATERMASTER)

TO: Cameron Tana  
Montgomery & Associates  
PROFESSIONAL

FROM: Robert Jaques  
WATERMASTER

**Services Needed and Purpose:** Plan and design a replacement groundwater monitoring well for existing Monitoring Well FO-9 Shallow (now destroyed and abandoned). This RFS No. 2022-05 only authorizes the first two Tasks described in the Scope of Work in Attachment 1. It is intended to authorize the subsequent Tasks in 2023 via a separate RFS.

**Completion Date:** All work authorized by this RFS shall be completed not later than December 31, 2022, and shall be performed in accordance with the Schedule described in Attachment 1.

**Method of Compensation:** Time and Materials (As defined in Section V of Agreement.)

**Total Price** Authorized by this RFS: \$ 23,600.00 (Cost is authorized only when evidenced by signature below.) (See Attachment 1 for Estimated Costs).

**Total Price** may not be exceeded without prior written authorization by WATERMASTER in accordance with Section V. COMPENSATION.

Requested by:  Date: 9-7-22  
WATERMASTER Technical Program Manager

Agreed to by:  Date: 9/26/2022  
PROFESSIONAL

# **ATTACHMENT 1**

## **SCOPE OF WORK**

This RFS No. 2022-05 authorizes PROFESSIONAL to perform the work of Tasks 1 and 2 described in the attached Proposal dated August 3, 2022 titled “Scope and Fee for Replacement Monitoring Well FO-9 Shallow.” It is understood that only a portion of the hours associated with Task 1 will be needed to perform Task 2, and that the remaining hours associated with Task 1 will be needed to perform Tasks 3 and 4.

Watermaster intends to authorize Tasks 3 and 4 in the Proposal via a separate RFS in 2023.

August 3, 2022

Mr. Bob Jaques  
Seaside Watermaster Technical Program Manager  
83 Via Encanto  
Monterey, CA 93940

**SUBJECT: SCOPE AND FEE FOR REPLACEMENT MONITORING WELL FO-9  
SHALLOW**

Dear Mr. Jaques,

Montgomery & Associates (M&A) is pleased to submit this scope, fee, and schedule proposal to the Seaside Groundwater Basin Watermaster (Watermaster) to provide hydrogeological support and construction management services for a replacement monitoring well for FO-9 shallow. The current FO-9 shallow monitoring well is constructed of 2-inch diameter PVC well casing with a screen intake from 610 to 650-feet below ground surface. This proposal assumes a borehole depth of 660-feet below ground surface (bgs), total well depth of 650-feet bgs, and proposes 2.5-inch Schedule 80 PVC well casing and screen. The deeper depth assumed is because the replacement well may not be located at the location of the original FO-9 shallow monitoring well. The actual location of the well will be determined during Task 2. Schedule 80 PVC is proposed to increase the lifespan of the replacement well.

M&A currently anticipates retaining the support of Maggiora Brothers Drilling (Maggiora) of Watsonville, CA, for well installation and development services. The drilling contractor is subject to change based on project requirements and with prior approval from Watermaster. Martin Feeney will additionally be retained to provide hydrogeological review and monitoring well design recommendations based on his history with Watermaster, as requested.

**SCOPE OF WORK**

The scope of work includes technical specifications, bidding and contract support, construction management, and reporting. M&A proposes the following tasks to complete the project:

- Task 1 – Project Management
- Task 2 – Technical Specifications
- Task 3 – Construction Management
- Task 4 – Reporting

These tasks are described individually below.

*Estimated Drilling Costs*

Estimated costs for the construction and development of monitoring well FO-9 shallow are included for budgetary purposes. These costs will be revised based on the selection of the well site and the final details of the technical specifications under Task 2. Costs included herein represent good-faith estimates based on current project understanding and/or assumptions, but may be revised to account for adjustments based on site conditions, well construction details and/or logistics, project duration, changes in labor or material rates, and other such factors. The technical specifications prepared under Task 2 will include a detailed bid schedule and timeline which will be used to refine M&A and Maggiora cost estimates. M&A will

provide revised costs for Task 3 and negotiate any required contract changes prior to beginning well construction activities.

#### **Task 1: Project Management**

M&A will provide administrative and budgetary management duties throughout the duration of the project; including but not limited to coordination with Watermaster, attendance at project meetings, assistance with site selection, permitting and providing information needed for Watermaster to obtain approvals from the landowner, budget management, and schedule management.

This task assumes a contract completion date of December 31, 2023. Progress reports will be included with invoice submittals.

#### **Task 2: Technical Specifications**

M&A will prepare technical specifications for the FO-9 shallow monitoring well to describe well design features, construction logistics, and installation and development procedures. Technical specifications will be used to gain agreement on the well design, construction logistics, and construction approach. Key components of the well design include borehole drilling, borehole geophysics, well installation, well development, and surface completion.

Task 2 includes preparation of draft technical specifications, one round of comments from Watermaster on the draft, and finalization. Draft and final technical specifications will be transmitted electronically. This task includes costs for one visit to the proposed well site with Watermaster and Maggiora to assess access and other site logistics.

M&A will assist the Watermaster with site selection for the well, including assistance in providing the information needed for Watermaster to obtain any necessary permits and approvals from the landowner. Watermaster is ultimately responsible for obtaining necessary permits.

#### **Task 3: Construction Management**

M&A will retain Maggiora to complete well installation and development, and will provide construction management during these activities. M&A will observe and document construction activities, including development of a lithologic log and determination of the final well design based on observations during drilling.

#### **ASSUMPTIONS**

- M&A can reasonably rely on the accuracy, timeliness, and completeness of information provided by Watermaster.
- M&A is responsible for tracking, cataloging, and approving submittals. M&A will provide Watermaster copies of all approved contractor submittals.
- Fieldwork will generally be conducted during 12-hour workdays on a standard 5-day workweek.
- Equipment rentals and fieldwork consumable purchases may be required. These may include but are not limited to field notebooks, chip trays and other miscellaneous project supplies. Costs for these items are included herein.
- M&A will assist the Watermaster in coordinating property access with the property owner.

- Prior to the start of drilling activities, M&A will coordinate and oversee subsurface utility locating by a Subtronic Corporation or equally qualified subsurface utility locating company. M&A is specifically not responsible for damages to buried utilities not identified by the property owner, Watermaster, Underground Service Alert of Northern California or the private utility locator.
- M&A and Maggiora will pay for and secure the Monterey County well permit.
- Costs for wellhead surveying (latitude, longitude, and elevation), groundwater sampling and well equipping (datalogger, sample pump, etc.) are not included in this proposal. Costs for these services can be provided upon request.

Construction management costs provided herein are estimated based on anticipated durations for each activity. The following durations are assumed for cost estimating purposes, for a total of approximately 24 field days:

- Utility clearance – 1 day
- Mobilization – 2 days
- Borehole drilling – 13 days
- Well installation – 3 days
- Well development – 3 days
- Well completion and demobilization – 2 days

Actual durations are subject to site conditions, drilling progress, weather and other factors not controlled by M&A. As such, actual costs are subject to increase or decrease based on actual durations. Field oversight costs are based on the Scientist 2 hourly rate, but efforts will be made to use the most cost-efficient, responsible staff level where feasible.

**Task 3: Reporting**

M&A will prepare a Well Installation Report following completion of site activities. The report will include a description of the work completed, description of the methods and procedures used, results and discussion of drilling and testing activities, conclusions and relevant appendices. A draft well installation report will be prepared in Microsoft Word format for Watermaster comment. Final submittal of this report will include one hardcopy and one PDF copy. The hardcopy report will additionally include long-form print outs of downhole logging (geophysical, caliper, alignment, spinner), a copy of the complete video survey in MP4 format (provided on DVD or flash drive), and one set of drill cutting chip trays.

Maggiora will file the Well Installation Report with the appropriate agency(s) including Monterey County Department of Health.

**COSTS**

The estimated costs by task are summarized below and detailed in Attachment 1.

		Labor Costs	Expenses	Sub Contractors	M&A 10% Markup	TOTAL
Task 1	Project Management	\$7,296	\$0	\$0	\$0	\$7,296
Task 2	Technical Specifications	\$14,324	\$300	\$1,500	\$180	\$16,304
Task 3	Construction Management	\$43,572	\$5,950	\$153,210	\$15,916	\$218,648
Task 4	Reporting	\$8,940	\$0	\$500	\$50	\$9,490
<b>TOTAL COST</b>		<b>\$74,132</b>	<b>\$6,250</b>	<b>\$155,210</b>	<b>\$16,146</b>	<b>\$251,738</b>

M&A hourly rates are subject to increases on January 1, 2023.

**SCHEDULE**

M&A assumes Task 2 will be completed by the end of calendar year 2022, provided the contract is executed by mid-October 2022 and that site selection is also completed during this time period. Well construction would occur in 2023 according to driller availability. The Well Installation Report will be completed within approximately 45 days following the completion of field activities.

If you have any questions, do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Bill DeBoer", with a long horizontal flourish extending to the right.

Bill DeBoer, P.G., C.Hg.  
Senior Hydrogeologist

Re: Construction of 2.5" Dia. x 660', PVC cased, monitoring well in Seaside, Ca.

The following is Maggiora Bros. Drilling, Inc. proposal:

1	Mobilization, includes permit	LS	1	\$10,000.00	\$10,000.00
2	Drill 10.75" bore hole	LF	660	\$92.00	\$60,720.00
3	E-log	LS	1	\$4,500.00	\$4,500.00
4	Caliper Log	LS	1	\$3,500.00	\$3,500.00
5	2.5" Sch 80 FT Blank Casing F&I	LF	620	\$25.00	\$15,500.00
6	2.5", Sch80 FT .030" screen F&I	LF	40	\$35.00	\$1,400.00
7	F & I Gravel Pack	LF	110	\$56.00	\$6,160.00
8	F & I sanitary seal	LF	550	\$55.00	\$30,250.00
9	Well Development	HR	8	\$500.00	\$4,000.00
10	test pump install & remove	LS	1	\$1,500.00	\$1,500.00
11	Pump development	HR	4	\$395.00	\$1,580.00
12	disposal of fluids & cuttings	LS	1	\$12,000.00	\$12,000.00
13	Standby time	HR	0	\$500.00	\$0.00

**Price: includes labor, equipment, material, taxes, & freight: \$151,110.00**

1. Customer is to provide access to site and to mark location of well.
2. Drilling Contractor will USA for drilling. We recommend that the customer have a private locator verify utilities at well location if needed.
3. Customer to provide a source of water for drilling at site and provide a level site for the well drilling equipment.
4. ~~Cuttings and drill fluids to remain on site and are the responsibility of the Customer, unless other provisions have been made.~~
5. Temp fencing, sound-walls, traffic control, or other BMP's are not included. These can be provided at an additional cost.
6. Drilling Contractor will provide a drilling permit from the County. All other permits are excluded.
7. Test hole destruction, if required, will be \$75/ft. If drilling slows to < 8' in two hours, drilling converts to hourly at \$550.00

Page 2

8. Bonding is not included in this proposal, but can be provided on a cost/plus basis.
9. Maggiora Bros. Drilling, Inc. current backlog is such that we may not be able to start the project for 4 to 5 months.
10. Proposal is valid for 30 days.
11. Due to the volatility of material & fuel costs in the current market, Maggiora Bros. Drilling, Inc. reserves the right to adjust pricing based on the actual cost of materials at the time of order.

Maggiora Bros. Drilling, Inc is a Union company; Operating Engineers, Local #3, as well as, a Certified Small Business. (34073)

If you have any questions, feel free to contact us!

Sincerely,

*Michael F. Maggiora*
